

Introducing CHEROKEE WORD LISTS, a compilation of almost 10,000 Cherokee words presented in with English, Phonetic, and Syllabary formats in four sections.

Section 1 contains the list of words in English sorted order. Section 2 contains the list in Phonetic sorted order. Section 3 contains the words in the Syllabary sorted order. Section 4 contains the words in the Syllabary sorted order as well as with multiple English words.

I hope this material contributes to the usage and to the learning of the Cherokee Language. Some additional material will be added in the next version such as phrases and grammar as well as conjugations so there is still much work to be done.

Cherokee is an indigenous language and is facing a surge in terms of interest, preservation, and learning after being washed out of young children's mouths in earlier centuries. Imagine learning the stories of history in its original language, in an original phonetic sound, in an original

innovative easy-to-learn syllabary writing and reading format, carrying its authentic original meaning. It carries the same impact as learning Shakespeare in English, learning the Bible in Hebrew, Aramaic, Greek, and Latin as well as English throughout its 2,000 year history, learning French cuisine in French, or learning science and all subject matter in a first, home-language rather than a third or fourth foreign tongue? Why not start learning about America in an American Language?

For those in the language department, the library system, and in education, culture, or the arts, this book is for you.

In preparation for Dictionary Day, October 16, 2024 learn the history of the Sequoia Tree, a massive giant long-living tree, and Sequoyah, the Cherokee inventor of the written form of the Cherokee language, which made it possible to achieve mass literacy within a short period of time. These stories and techniques are available as rapid learning literacy tools. Learn Cherokee. Preserve Cherokee. Do not lose the original authentic history of America.
